Dear Secretary Dortch:

On behalf of Epana Networks, Inc. ("Epana"), please find attached a redacted, public version and a confidential version of the Officer Certification required in WC Docket No. 05068 for the 1st Quarter of 2009.

Epana, by its counsel and pursuant to Sections 0.457 and 0.459 of the Commission's Rules, 47 C.F.R. §§ 0.457, 0.459 (1994), hereby requests that the attached confidential Certification be treated as a confidential document not subject to public inspection. This Certification contains information regarding Epana's calling card traffic patterns and revenue information that would not otherwise be available to the public. Confidentiality Justification

Epana requests confidential treatment of the information being provided in its Pre-Paid Calling Card Provider FCC Quarterly Certification ("Certification") because this information is competitively sensitive and its disclosure would have a negative competitive impact on Epana were it made publicly available. Such information would not ordinarily be made available to the public, and should be afforded confidential treatment under 47 C.F.R. §§0.457 and 0.459.

47 C.F.R. §0.457

Specific information in the Certification is confidential and proprietary to Epana as "trade secrets and commercial or financial information" under Section 47 C.F.R. §0.457(d). Disclosure of such information to the public would risk revealing company-sensitive proprietary information in connection with Epana's ongoing business and operations.

47 C.F.R. §0.459

Specific information in the Certification is also subject to protection under 47 C.F.R. §0.459, as demonstrated below.

Information for which confidential treatment is sought

Epana requests that specific information in the Certification, marked as "[REDACTED]" be treated on a confidential basis under Exemption 4 of the Freedom of Information Act. The information designated as confidential is information regarding Epana's percentage of intrastate, interstate and international calling card minutes. This information is competitively sensitive information that Epana maintains as confidential and is not normally made available to the public. Release of the information would have a substantial negative impact on Epana since it would provide competitors with commercially sensitive information. The non-redacted version of Epana's filing is marked as "CONFIDENTIAL - NOT FOR PUBLIC INSPECTION."

Commission proceeding in which the information was submitted

The information is being submitted as Epana's Pre-Paid Calling Provider FCC Quarterly Certification in WC Docket No. 05-68.

Degree to which the information in question is commercial or financial, or contains a trade secret or is privileged

The information designated as confidential is information regarding Epana's percentage of intrastate, interstate and international calling card minutes. As noted above, the data is competitively sensitive information which is not normally released to the public as such release would have a substantial negative competitive impact on Epana.

Degree to which the information concerns a service that is subject to competition and manner in which disclosure of the information could result in substantial harm

The release of this confidential and proprietary information would cause Epana competitive harm by allowing its competitors to become aware of sensitive proprietary information regarding the operation of Epana's business.

Measures taken by Epana to prevent unauthorized disclosure; and availability of the information to the public and extent of any previous disclosures of the information to third parties

Epana has treated and continues to treat the non-public information disclosed in this Certification as confidential and has protected it from public disclosure to parties outside of the company.

Justification of the period during which Epana asserts that the material should not be available for public disclosure

Epana cannot determine at this time any date on which this information should not be considered confidential.

Other information Epana believes may be useful in assessing whether its request for confidentiality should be granted

Under applicable Commission decisions, the information in question should be withheld from public disclosure.
